

6 December 2006

To Whom It May Concern,

**RE: BRODYN PTY LTD, T/AS TCQ BUILDERS - GENERAL TECHNICAL REFERENCE**

This statement is provided in response to a request from Mr. Brett Matterson for a reference and confirmation of work completed through our office.

TCQ have worked on a considerable number of projects, where we acted as Project Managers, or as Specifying Engineers and Superintendents.

The projects completed varied in value from approximately \$200,000 for building remedial work to \$ 4 M for multi unit construction.

A typical scope of work for a building upgrade has included works in the nature of – installation of balustrades, electrical upgrading works, access and egress upgrades and fire protection works.

For remedial works the typical scope has included replacement of cavity brick wall ties, concrete spalling rectification, waterproof and drainage works.

All my dealings with TCQ Builders have always been professional and the projects have all been successfully completed and as such have no hesitation recommending TCQ to any prospective client's

Should you wish further information, please do not hesitate to contact me on the numbers below, or
