

ROYAL BOTANIC GARDENS SYDNEY

To Whom It May Concern:

Over the past 12 months I have been working with Jim Matterson and his colleagues from Brodyn Pty Ltd/TCQ Constructions.

Following a fairly lengthy research and design process, TCQ won the contract to reconstruct the historic Domain Horticultural Depot and Colonial Gate House within the Royal Botanic Gardens and Domain Trust lands.

Despite heritage archaeological restrictions as well as significant periods of wet weather, TCQ completed all works on this precinct to a high standard and ahead of time.

TCQ organised weekly project control meetings which included Department of Public Works and Services (insurers), HASSELL Pty Ltd (architects) and Royal Botanic Gardens staff. These meetings provided rapid feedback and problem solving as well as facilitating a service satisfaction rating system which encouraged constructive criticism of the work in progress, and quick remedying of any defects.

TCQ staff were punctual, polite and safe at all times and demonstrated appropriate level of respect for our high profile heritage site.

I wish Jim Matterson of Brodyn Pty Ltd well in further ventures and have no hesitation in recommending TCQ to other park and garden agencies.

Yours sincerely,

Bruce Rann
Curator/Manager, Sydney
